PREFACE

We congratulate for the authors for the publication of Journal of Applied Science, Engineering and Technology – J. ASET Vol. 2 Issue 1, June 2022 edition. This is now the 2nd year of our publication and hope to continue with a better format and standard.

This issue comes with five scientific articles from various scientific field of study. They are including mechanical engineering, biomedical engineering, chemical engineering, geological engineering, and that integrates engineering, applied sciences, and electrical engineering and technology. Our contributor's countries are including Indonesia, Malaysia, and Saudi Arabia.

J. ASET is published by INSTEP network and open wider collaborative to other scientific communities and organization around the world. It aims to provide a cross section roadmap from basic science research, engineering and technology aspect for industrial and society application. We believe that this issue will give a suitable reference text for those who interested in the interdisciplinary studies and research.

We are pleased and thankful for all distinguish authors and reviewers for their contribution and efforts.

We do hope that this issue may give a good impact and be a useful reference for you.

Regards,

J. ASET Editorial Board
